What A Day!

This year, as in many years past, our leader and route-maker Bruce Roberson created a fun-filled look at Houston through the eyes of a psychopath (he chose the term, not anyone associated with this newsletter). The route included some of the city's outstanding and well-known spots (and if they're not they should be). For those of you unable to drive the route, here's a test:

Do you know the Beer Can House? the Mortuary Museum? the new Co-cathedral? the Art Car Museum? Tony's Corner Pocket (where you can meet Houston's oldest surviving AIDS case)? Sigs Lagoon? the Mother of Sojourn House: South Main Baptist Church (and what year was it founded)? the future Buffalo Museum presently called the Light Horse Armory? the Washburn

Tunnel? the MacGregor Corridor? Arne's? Fitzgerald's? and the beautiful new downtown park (how many sculptures here)?

Though some of these sites are new, the route also provided a bit of nostalgia for some of us who've been doing this a while. But all of us see places in Houston that we might never see without the Rally.

The Rally started at Molina's on Washington, where Ricardo Molina and his crew of cheerleaders headed by Carlos Martinez created a festive beginning to our efforts, and then ended at the Post Oak Grill, where Polo Becerra and his folks once again turned the site into the perfect Finish Line with fabulous food, great service, and everything we needed for our incomparable auctions.
